

App Marketplace - Self-provisioning Workflow - Udemy for Business

Udemy is an online learning and teaching marketplace that hosts online courses. If your company uses **Udemy**, you can integrate your Udemy content into SumTotal Learn so your learners can access all their training in one place.

For more on Udemy, please check their website (www.udemy.com).

Configure and Activate Udemy Integration

From the SumTotal App Marketplace home page, find the integration connector app for **Udemy for Business**.

Hover over the listed **Udemy for Business** app and click **More Info** to navigate to the Udemy app details page.

App Author

The Udemmy for Business app details page provides several details, including an overview of Udemmy for Business, a link to the installation guide, pricing details, FAQs, and contact info to the SumTotal Marketplace Team.

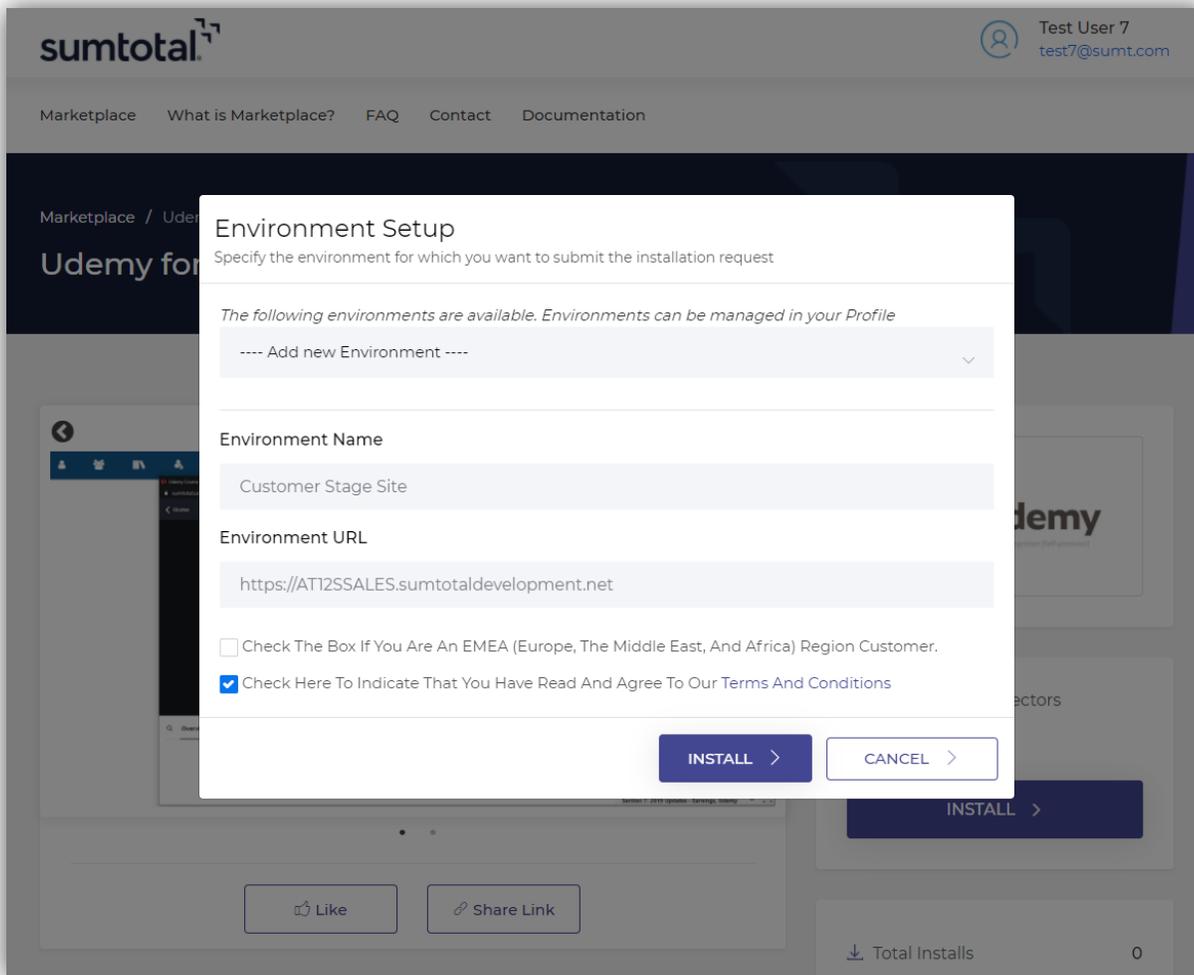

From the Udemmy app details page, click **Sign In To Install** to navigate to the **Login Page**.

Log in to the SumTotal Marketplace. If you do not have an account, please click on the link to create one. On successful login to the Marketplace, the **Setup Environment** button appears.

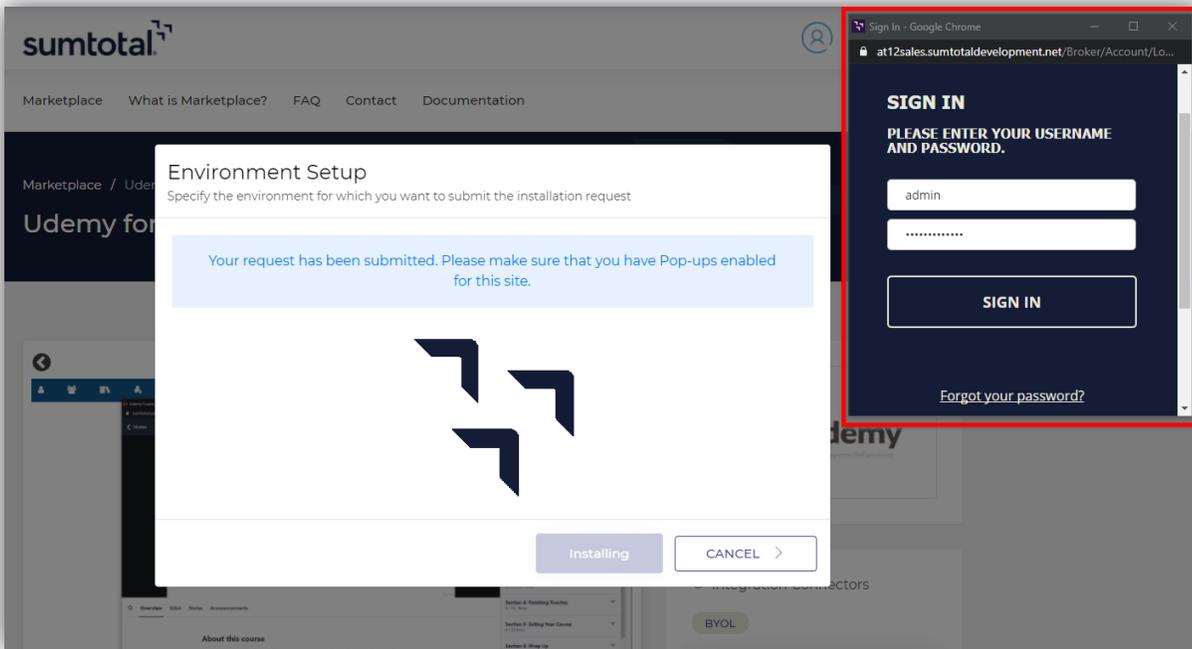

Click **Setup Environment** to specify the environment for which you want to submit the installation request. The **Installation Environment** popup screen appears.

On the **Installation Environment** pop up:

- Enter the environment or site name.
- Enter the environment or site URL.
- Select the checkbox if you are an **EMEA** (Europe, The Middle East, and Africa) region customer.
- Select the checkbox to agree to the terms and conditions.

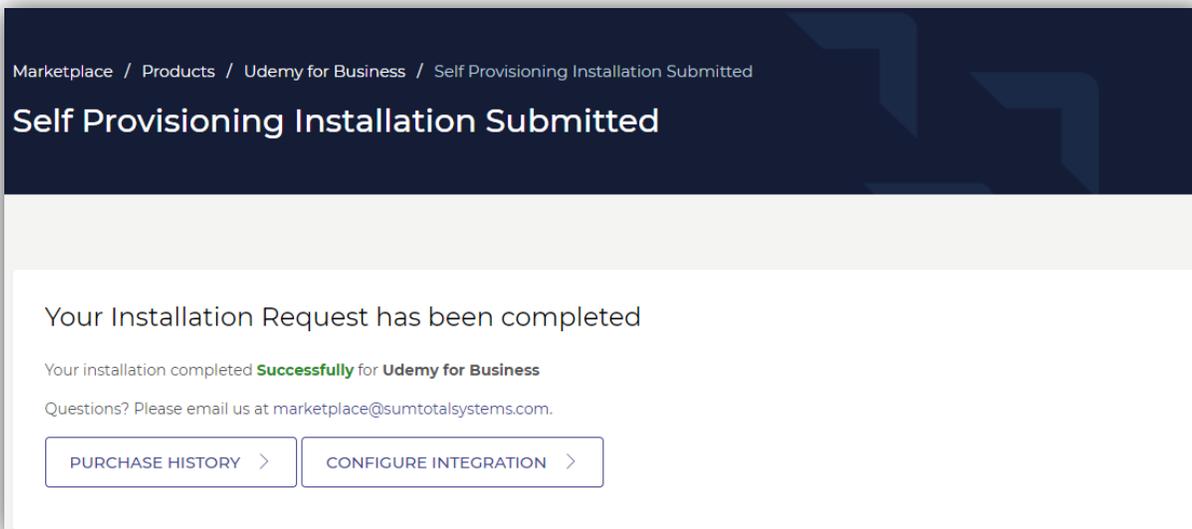

Click **Install**. This redirects you to the SumTotal URL entered for installation.

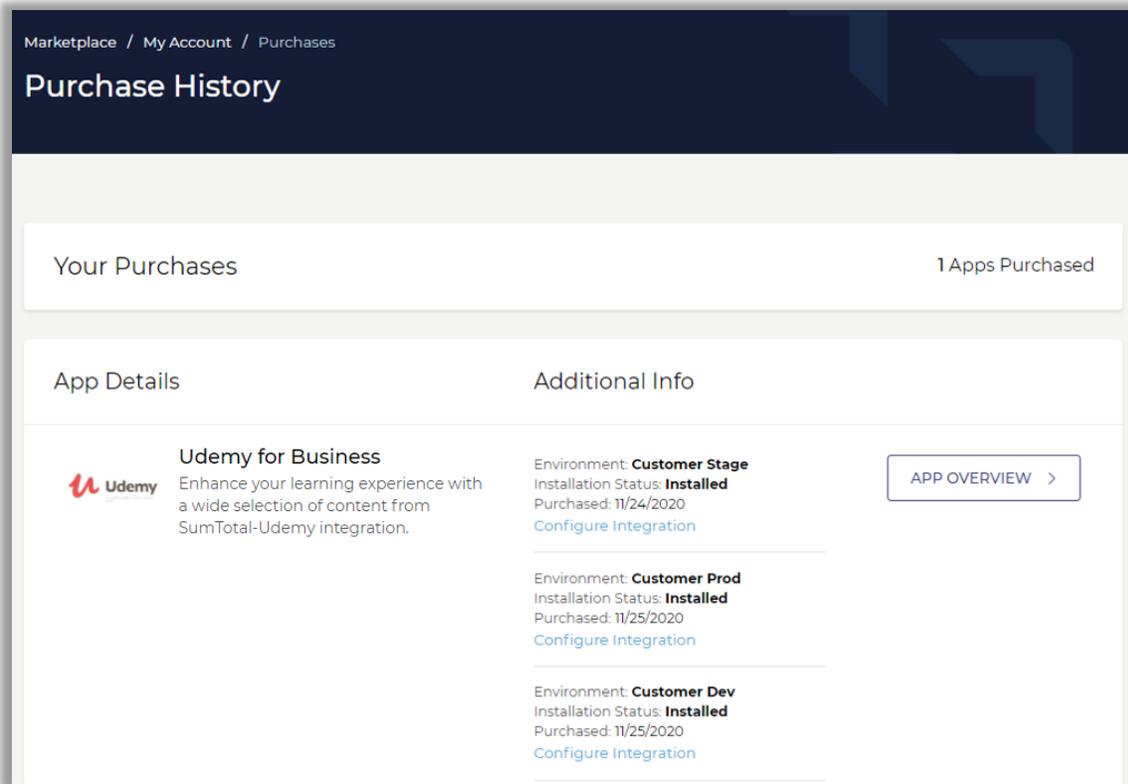

Enter the SumTotal Learning environment credentials.

Upon successful login to the environment, you receive a confirmation message that your installation request has been submitted.

Please wait for few seconds to complete the installation.

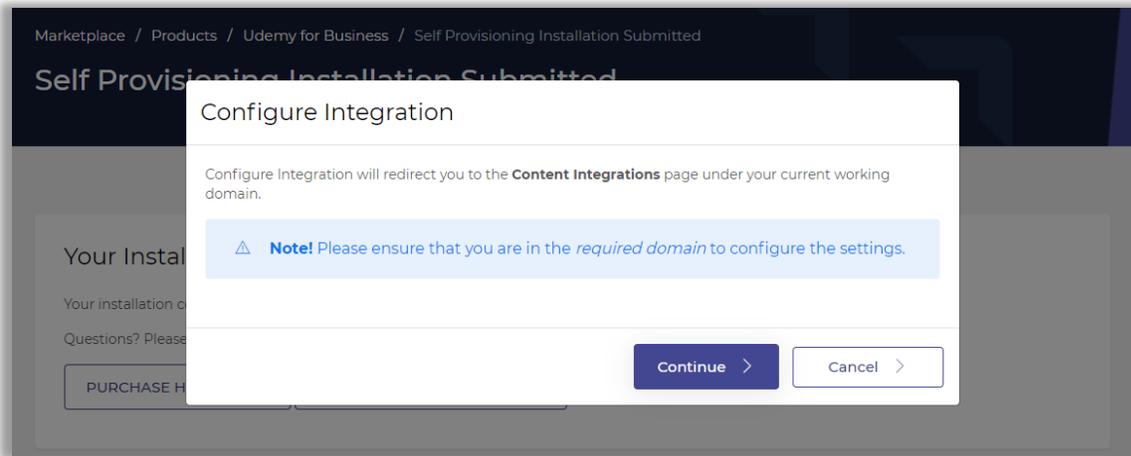

- **Purchase History** – Allows you to check all your purchase history. This page displays details for the apps installed, additional information such as environment name, installation status, purchase date, and a link to go back to the **Content Integration** page.

The **App Overview** button allows you to navigate back to the App Details page.

- **Configure Integration** – Enables you to configure the screen for integration.

Click **Configure Integration** to navigate to the **Content Integrations** page under your current working domain. Ensure that you are in the *required domain* to configure the settings.

Click **Continue** to navigate to the **Content Integration** page.

The Content Integrations list page in the SumTotal environment will now display **Udemy for Business** entry created through Marketplace Self Provisioning. From here, you can edit integration properties as per needs.

Click **EDIT** alongside the Udemy for Business entry to open the Udemy Content Integrations Form Page.

Enter the default learning activity properties below. Learn will only apply these properties to learning activities synchronized in the future. Content is synchronized daily.

Udemty
Your Brandmark

Udemty for Business helps companies stay competitive in today's rapidly changing workplace by offering fresh, on-demand learning content through a powerful content marketplace. Our mission is to help employees do whatever comes next-whether that's the next project to tackle, skill to learn or role to master. We do this by curating a collection of 4,000+ of Udemty's top-rated courses taught by the world's leading experts. Our content covers a variety of key business and technical topics ranging from Artificial Intelligence and IT to leadership, marketing, design and stress management. In addition to a curated content collection, organizations can also host and distribute their own proprietary content on Udemty.

You have now successfully created **Udemty for Business** entry in the Content Integration page and configured it.

Do you want to integrate with other environments?

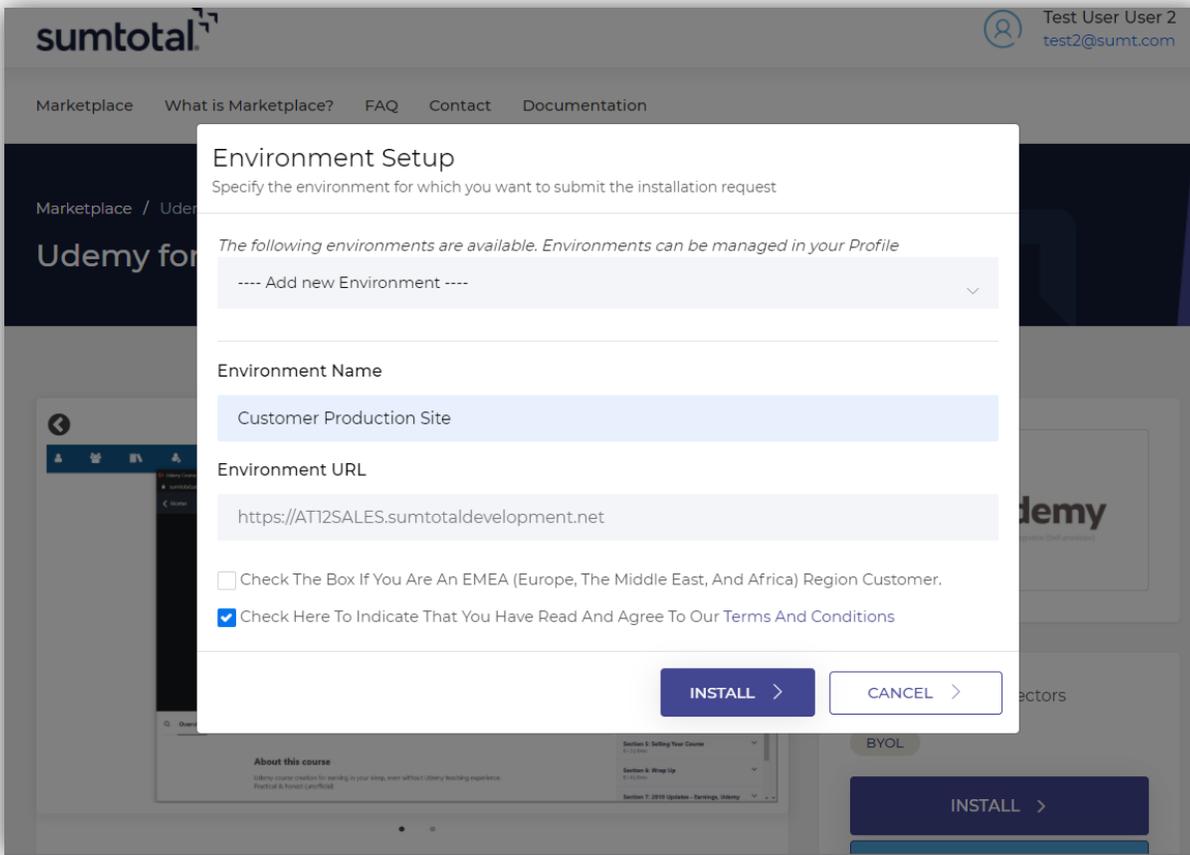

Please continue with the following steps to integrate UdemY for Business for additional environments (Dev/Stage/Production).

The screenshot displays the app details page for 'UdemY for Business' in the SumTotal Marketplace. The page is divided into several sections:

- Header:** 'Marketplace / UdemY for Business' and 'UdemY for Business'.
- Preview:** A window showing the app interface with a 'Welcome' message and a course list. The course list includes sections like '1. Who Am I, and What's Your Goal?', '2. Introduction', '3. Making a Plan', '4. Choosing a Topic', '5. Competition Analysis', 'Section 2: Planning Your Course', 'Section 3: Making the Course', 'Section 4: Finding Teachers', 'Section 5: Selling Your Course', 'Section 6: Wrap Up', and 'Section 7: 2019 Updates, Settings, Utility'.
- Integration Connectors:** A section with a 'BYOL' button and two main buttons: 'INSTALL >' and 'PURCHASE HISTORY >'.
- Statistics:** A table showing 'Total Installs' as 0 and 'Likes' as 2.
- App Information:** A section with the category 'Learning Management'.
- Navigation:** A horizontal menu with tabs for 'Details', 'Installation Guide', 'Pricing', 'FAQs', and 'Contact Info'.
- Overview:** A text block describing the app: 'UdemY for business Cloud Integration will help organizations to stay competitive in today's rapidly changing workplace by offering fresh, on-demand learning content through a powerful content marketplace. Help your employees do whatever comes next- whether that's the next project to tackle, skill to learn or role to master. You can achieve this by importing a curated collection of 4,000+ of UdemY's top-rated courses taught by the world's leading experts. These content covers a variety of key business and technical topics ranging from Artificial Intelligence and IT to leadership, marketing, design and stress management.'

On the App Details page:

- The **Install** button enables you to add a new environment or install the app for any previously available environment.
- The **Purchase History** button shows details of all your purchases.

From the **Environment Setup** screen, please follow the steps as mentioned previously.

Note: For further assistance on Self-provisioning Workflow, please reach out to SumTotal Marketplace Team: marketplaceadmin@sumtotalsystems.com.
