

SumTotal Marketplace - Self-provisioning Workflow - OpenSesame

OpenSesame is an online learning and teaching marketplace that hosts online courses. If your company uses **OpenSesame**, you can integrate your OpenSesame content into SumTotal Learn so your learners can access all their training in one place.

For more on OpenSesame, please check their website (<https://www.opensesame.com/>).

Configure and Activate OpenSesame Integration

From the SumTotal Marketplace home page, find the integration connector app for **OpenSesame**.

Hover over the listed **OpenSesame** app and click **More Info** to navigate to the OpenSesame app details page.

The OpenSesame app details page provides several details, including an overview of OpenSesame, a link to the installation guide, pricing details, FAQs, and contact info to the SumTotal Marketplace Team.

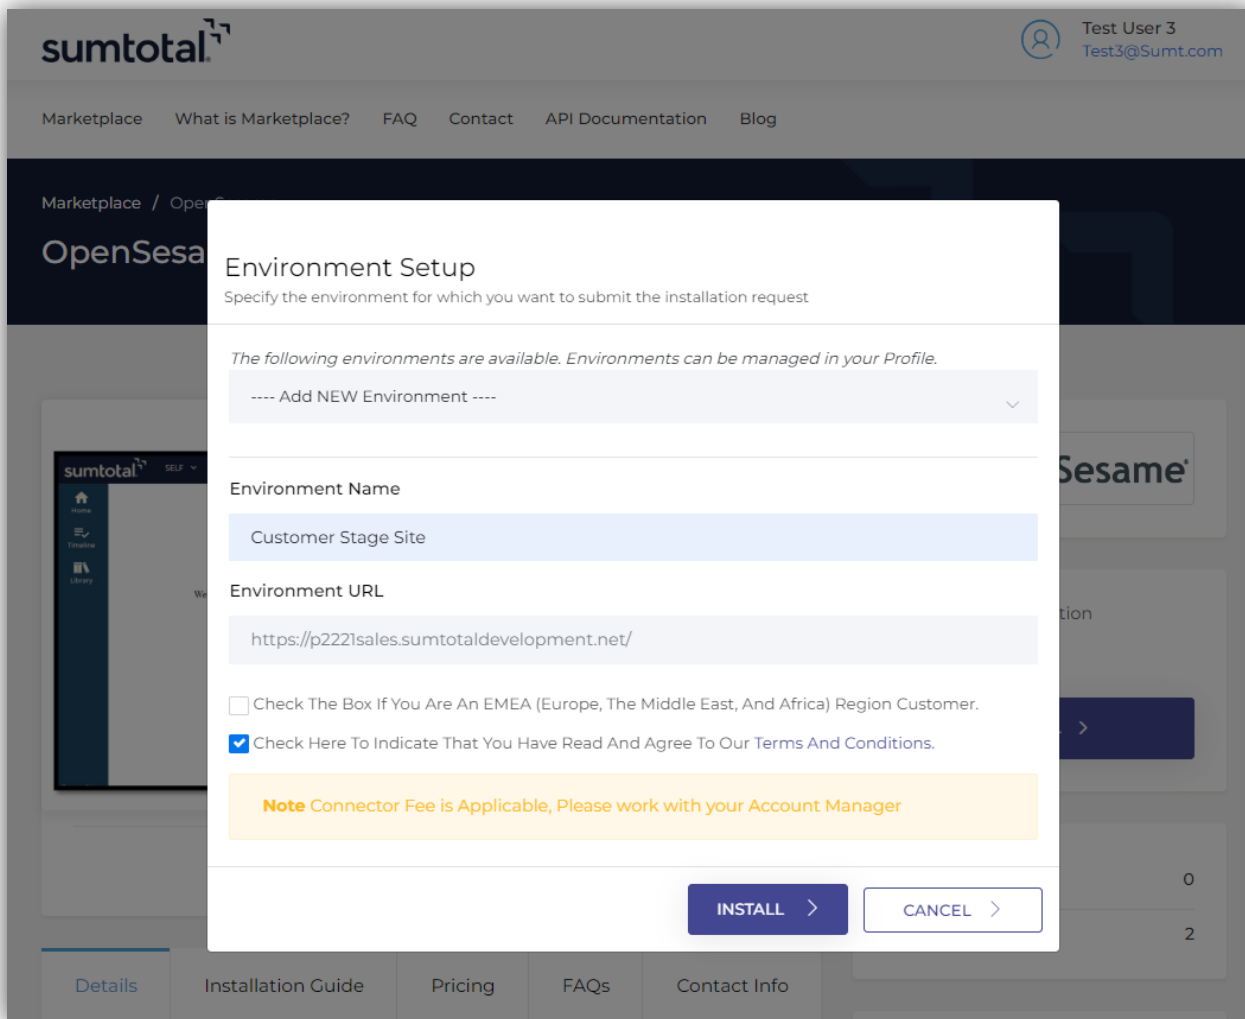

From the OpenSesame app details page, click **Sign In To Install** to navigate to the **Login Page**.

Log in to the SumTotal Marketplace. If you do not have an account, please click on the link to create one. On successful login to the Marketplace, the **Install** button appears.

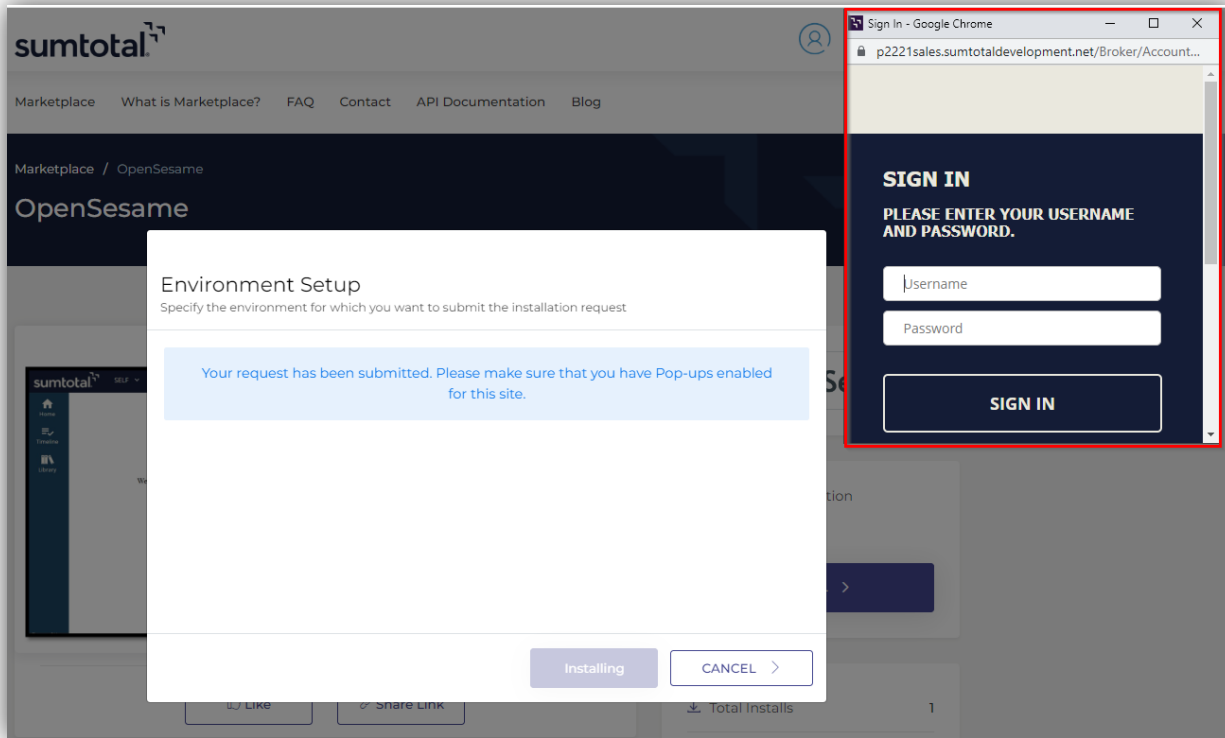

Click **Install** to specify the environment for which you want to submit the installation request. The **Installation Environment** popup screen appears.

On the **Installation Environment** pop up:

- Enter the environment or site name.
- Enter the environment or site URL.
- Select the checkbox if you are an **EMEA** (Europe, The Middle East, and Africa) region customer.
- Select the checkbox to agree to the terms and conditions.

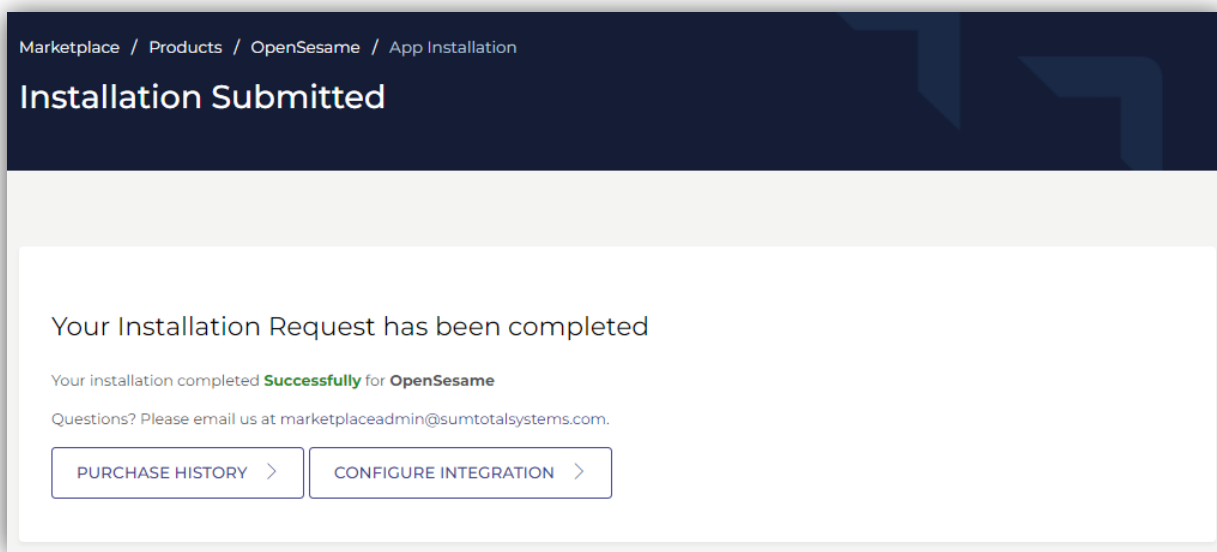

Click **Install**. This redirects you to the SumTotal URL entered for installation.

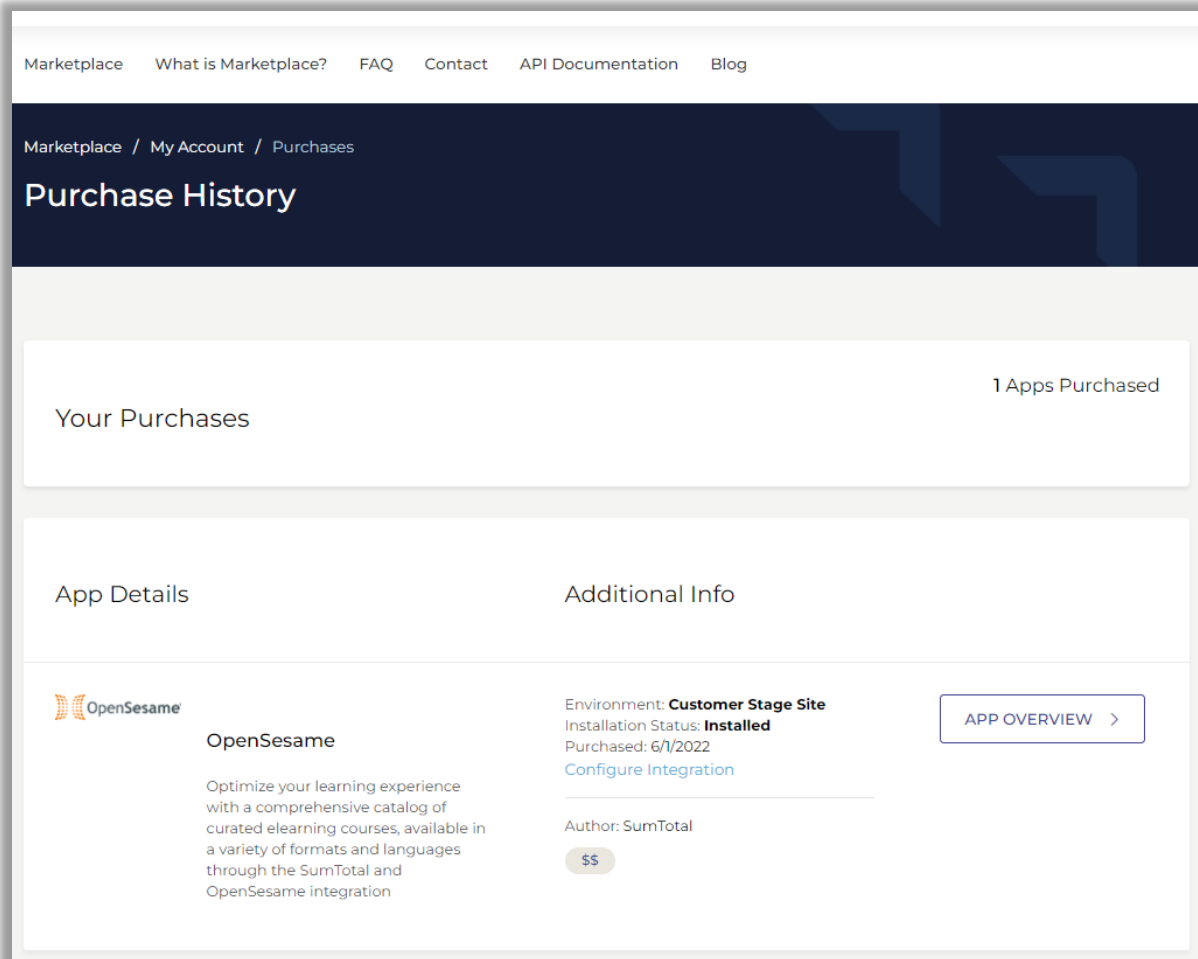

Enter the SumTotal Learning environment credentials.

Upon successful login to the environment, you receive a confirmation message that your installation request has been submitted.

Please wait for few seconds to complete the installation.

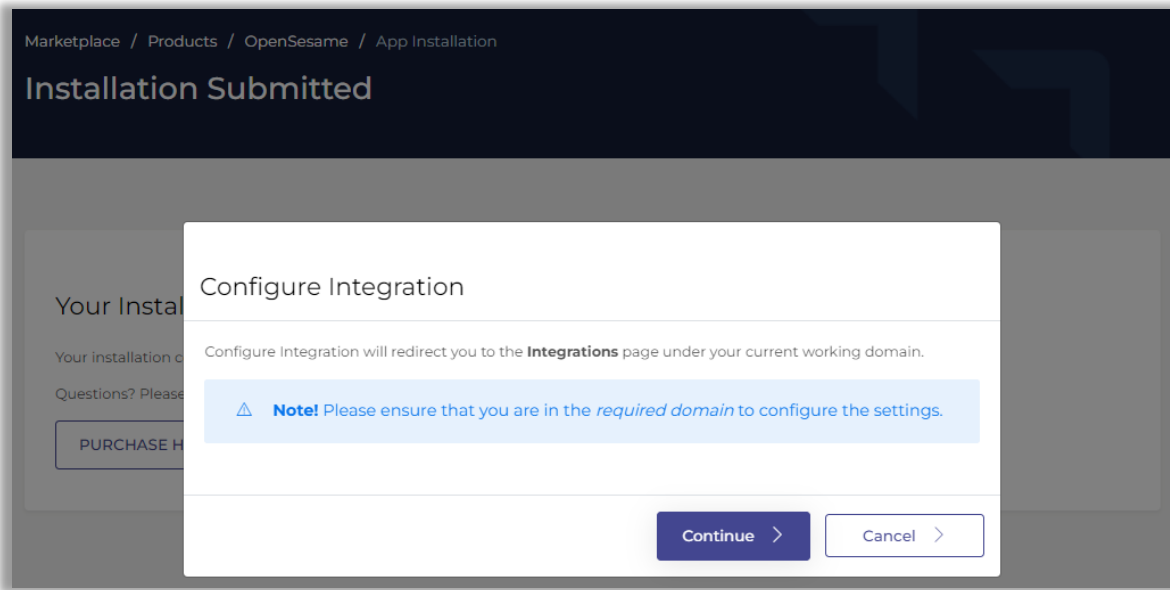

- **Purchase History** – Allows you to check all your purchase history. This page displays details for the apps installed, additional information such as environment name, installation status, purchase date, and a link to go back to the **Content Integration** page.

The **App Overview** button allows you to navigate back to the App Details page.

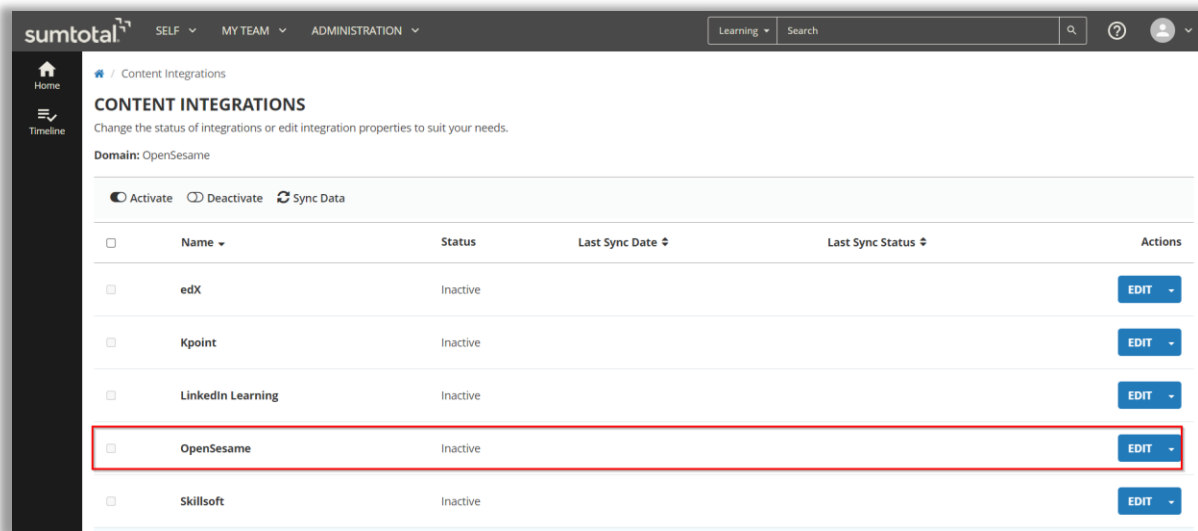

- **Configure Integration** – Enables you to configure the screen for integration.

Click **Configure Integration** to navigate to the **Content Integrations** page under your current working domain. Ensure that you are in the *required domain* to configure the settings.

Click **Continue** to navigate to the **Content Integration** page.

The Content Integrations list page in the SumTotal environment will now display **OpenSesame** entry created through Marketplace Self Provisioning. From here, you can edit integration properties as per needs.

Click **EDIT** alongside the OpenSesame entry to open the OpenSesame Content Integrations Form Page.

The screenshot displays the SumTotal administration interface for configuring an OpenSesame content integration. The page is titled "EDIT" and includes a navigation sidebar on the left with options like Home, Content, and Timeline. The main content area features the OpenSesame logo and a mission statement. Below this, there is a "Status" section with an "Activate" checkbox. The configuration fields are organized into two columns:

- Left Column:**
 - Content Endpoint Url *
 - Client ID *
 - Customer Integration ID *
 - ACTIVITY LAUNCH SETTINGS:
 - Launch Mode * (Dropdown menu showing REDIRECT)
 - Unique User Identifier * (Dropdown menu showing Person ID)
 - Default Audience * (Text input showing OpenSesame_SUMT Audience with a BROWSE button)
 - Prefix to Learning Activity Code (Text input showing opensesamecf_)
- Right Column:**
 - OAuth Token Endpoint Url *
 - Client Secret *
 - Suffix to Learning Activity Code

At the bottom of the form, there is an "EMAIL CONFIGURATION" section. A "TEST" button is located between the Content Endpoint Url and the ACTIVITY LAUNCH SETTINGS sections.

Enter all the required details and then click **Save**. Please refer the *SumTotal-OpenSesame Content Integration Setup Guide* to complete the configuration.

You have now successfully created **OpenSesame** entry in the Content Integration page and configured it.

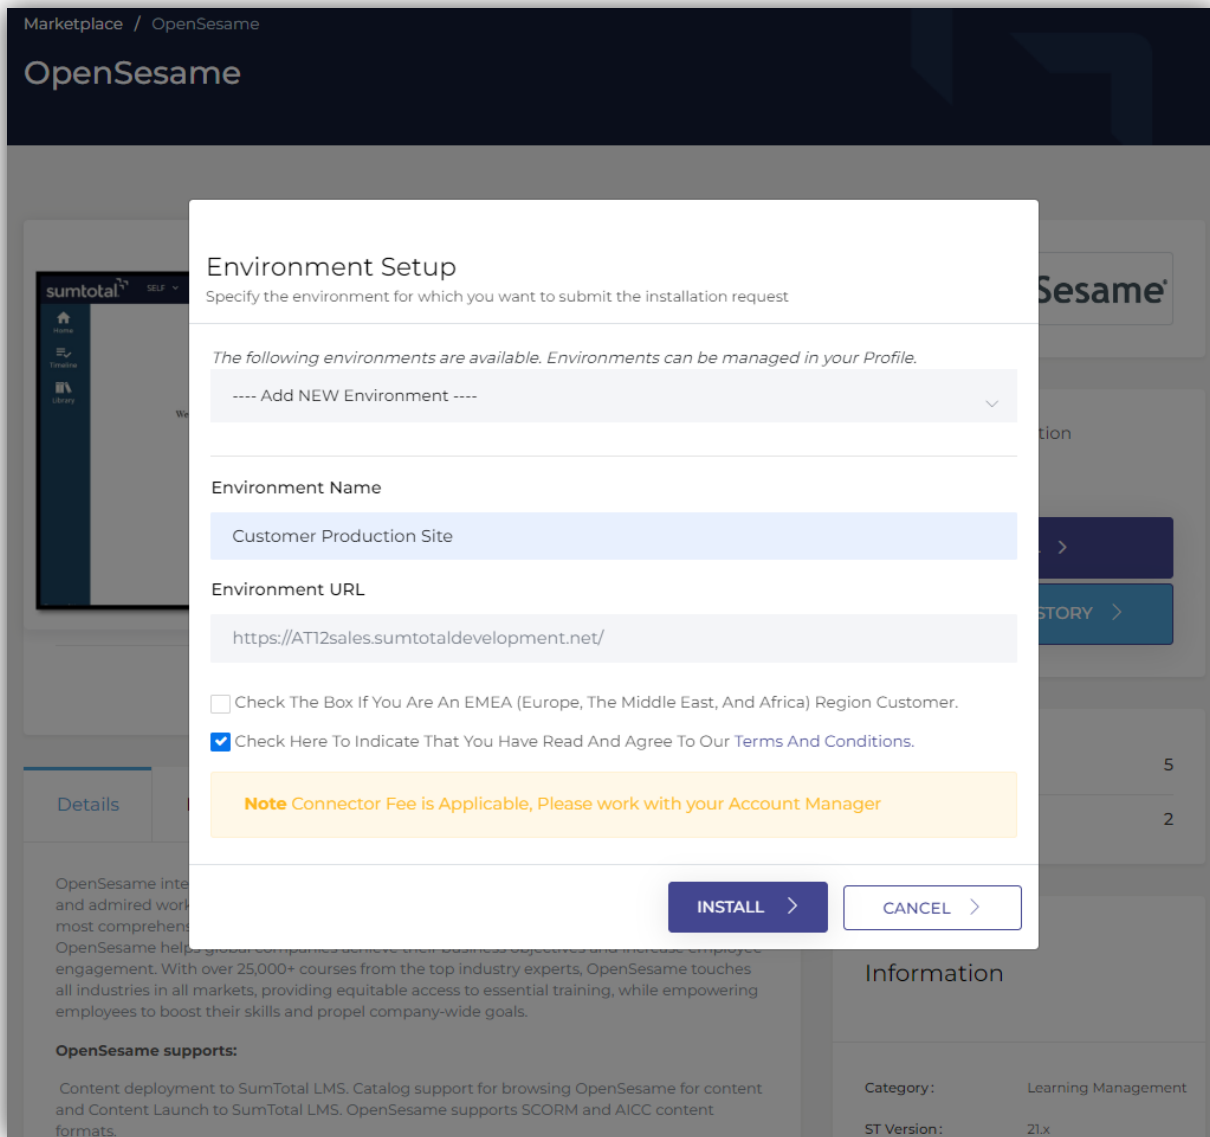

Do you want to integrate with other environments?

Please continue with the following steps to integrate OpenSesame for additional environments (Dev/Stage/Production).

The screenshot displays the OpenSesame app details page. At the top, there's a navigation bar with 'Marketplace / OpenSesame' and the 'OpenSesame' logo. Below this, a banner reads 'Launch OpenSesame content from SumTotal LMS'. The main content area features a preview of the app interface, showing a course titled 'COVID-19 Customer Service: De-escalating Mask-related Conflict' with a 'Start' button. To the right of the preview are buttons for 'Like' and 'Share Link'. Below the preview is a tabbed menu with 'Details', 'Installation Guide', 'Pricing', 'FAQs', and 'Contact Info'. The 'Details' tab is active, showing a description of the app's integration capabilities and a section titled 'OpenSesame supports:' which lists content deployment to SumTotal LMS, catalog support, and SCORM/AICC content formats. On the right side of the page, there's a sidebar with the OpenSesame logo, a 'Content Aggregation' section with a '\$\$' price indicator, and two buttons: 'INSTALL >' and 'PURCHASE HISTORY >'. Below this, a statistics table shows 'Total Installs' as 5 and 'Likes' as 2. At the bottom of the sidebar, an 'Information' section lists 'Category: Learning Management' and 'ST Version: 21.x'.

On the App Details page:

- The **Install** button enables you to add a new environment or install the app for any previously available environment.
- The **Purchase History** button shows details of all your purchases.

From the **Environment Setup** screen, please follow the steps as mentioned previously.

Note: For further assistance on Self-provisioning Workflow, please reach out to SumTotal Marketplace Team: marketplaceadmin@sumtotalsystems.com.
