App Marketplace - Self-provisioning Workflow - getAbstract

getAbstract is an online learning and teaching marketplace that hosts online courses. If your company uses **getAbstract**, you can integrate your getAbstract content into SumTotal Learn so your learners can access all their training in one place.

For more on getAbstract, please check their website (www.getabstract.com).

Configure and Activate getAbstract Integration

From the SumTotal App Marketplace home page, find the integration connector app for **getAbstract**.

Hover over the listed **getAbstract** app and click **More Info** to navigate to the getAbstract app details page.

Click **Setup Environment** to specify the environment for which you want to submit the installation request. The **Installation Environment** popup screen appears.

On the **Installation Environment** pop up:

- Enter the environment or site name.
- Enter the environment or site URL.
- Select the checkbox if you are an **EMEA** (Europe, The Middle East, and Africa) region customer.
- Select the checkbox to agree to the terms and conditions.

Click **Install**. This redirects you to the SumTotal URL entered for installation.

You have now successfully created **getAbstract** entry in the Content Integration page and configured it.

Do you want to integrate with other environments?

Please continue with the following steps to integrate getAbstract for additional environments (Dev/Stage/Production).

On the App Details page:

- The **Purchased** button shows details of all your purchases.
- The **Install** button enables you to add a new environment or install the app for any previously available environment.
